The Middletown Transcript.

MIDDLETOWN, DEL.

SATURDAY MORNING, SEPTEMBER 24, 1870.

THE DUTY OF THE CITIZEN.

In a government like ours, where the people bear rule through their chosen representatives, every man is an integral part of the government, and in some degree responsible for the character of the government, whether it be good or bad. If by his ballot and by his personal influence he upholds the good and opposes the evil, he has fulfilled his duty, and his responsibility for the evil ceases. But, if he neglects or refuses to exert his personal influence or to exercise his right of suffrage in behalf of what he conscientiously believes to be right and proper, he is derelict in duty, and fails to measure up to the standard of good citizenship; the state and society suffers through his delinquency and he is responsible, in his degree, for any political evil or maladministration which may ensue. The elective franchise is a sacred trust, reposed in the citizen, not for the good of himself alone, but for the benefit of the state also, of which he is a component part. It should be exercised intelligently and conscientiously, for the good of the whole. It is the source of power in a republic, and the glory of a free people, and ought to be cherished and guarded with a jealous care. That it has been conferred upon an ignorant, brutal, and semi-barbarous race, who are living amongst us, is our shame, and a detriment to the state. But, because these ignorant barbarians have been permitted to share this privilege with us, is that a valid reason for any intelligent citizen to refuse to exercise the right himself? Is it not, rather, an additional incentive for him to repair to the polls and cast his ballot against this great degradation of the elective franchise? That he is filled with disgust at this pollution of the source of power in our republic, is natural. Every truly patriotic and right-thinking citizen, must experience the same feeling; but, is a refusal to vote a remedy for the evil? Is it not rather a sanction of the evil to refuse to apply the only remedy which meets the case? "But," says the objector, "I have solemnly declared that I would not vote, and I must keep my word." If it was wrong to make such a vow, and we have endeavored to show that it was, it is an additional and a greater wrong to keep it, if you are convinced that you were wrong in making it. To keep one's word is commendable, if that word were rightly spoken; but it is a sound principle in ethics, that a bad promise is better broken than kept. The morality of this principle cannot be called in question. It is eminently proper and right, therefore, for any one who has made this rash vow, to reconsider and reverse it. Nay, more, it is his imperative duty to do so. We trust that every one will feel it to be his duty, in this solemn crisis of our country's history, to go to the polls and by his ballot protest against this great outrage upon American citizenship, and this pollution of the elective franchise, the great source and fountain of all legitimate power in a republican government. If your country were invaded by a foreign foe, you could not reconcile it with your sense of duty to remain in safety while others went to the front with arms in hand to repel the invaders and give you protection. Patriotism requires you to wield the ballot for your country's safety and honor, as well as the bullet; for, if she ever falls, her ruin is more likely to result from the former than the latter.

The Democrats of St. Georges Hundred nominated the following ticket, on Saturday last:

Inspector—James Garman.

Assessor—Robert H. Foster.

Road Commissioners.—Isaac Woods, Thomas F. Dilworth,

In Appoquinimink Hundred the nominee for Inspector and Assessor, was Mr. Andrew W. Webster. He having declined the office of Inspector, a meeting will be held at Blackbird on Tuesday next, to fill the vacancy. Messrs. Samuel Roberts and Alexander Deakyne, were nominated as Road Commissioners.

MEETING POSTPONED.—Jesse Sharpe, Chairman of the Executive Committee, has issued the following notice of postponement of the mass meeting announced to be held at Middletown, this afternoon:

"Owing to the lateness of the season, and engagements of the farmers just at this time, and to meet the wishes of very many gentlemen who desire to be present, but cannot if the meeting is held on Saturday next, the 24th of September, I have been influenced to announce the postponement of the Democratic meeting heretofore called at Middletown, until a future day to be named hereafter." JESSE SHARPE,

Chairman of the Executive Committee.

Governor Hoffman and the whole State ticket have been renominated for re-election in New York, by acclamation.

In the greater part of Sussex county, no rain fell from June till Saturday last. The crops have failed four years in succession.

THE STATE ELECTIONS OF 1870.

All State elections of 1870, thus far held, have been, in the highest degree, favorable for the Democracy. Connecticut opened the ball in April with the choice of a Democratic Governor, instead of a Republican chosen the year previous. Then came the judicial election for Appeal Judges in New York, which resulted in the success of the Democracy by the unprecedented majority of 99,000 votes. Oregon followed in June, and elected a Democratic Governor, Congressmen and Legislature, insuring the choice of a Democratic United States Senator in the place of Williams, Republican. In August the Conservatives or Democrats—which is the same thing in North Carolina—swept that State, choosing two-thirds of the Legislature and the Congressional delegations, and gaining another United States Senator. Hitherto the State had been Radical by a majority of many thousands. In Kentucky, despite the addition of 50,000 negro votes to the polling list, the Democracy still maintained their 50,000 majority in the State. In Tennessee, at the election of Judges, the vote showed fully 70,000 majority for the Democracy in a State that gave General Grant for President the heavy majority of 29,000 votes. Even in dark and benighted Vermont we have made a handsome Democratic gain, while in Maine it amounts to many thousand votes.

These results in every part of the country are not owing to any local causes. They do not spring from any accident. They simply indicate that a general dissatisfaction exists throughout the country at the management of our political affairs, and that there is a widespread desire for a change. This feeling will be stronger evinced in the elections which are to come in Ohio, Indiana and Pennsylvania. We have never known, in a political experience of many years, the last elections of a season going different from the earlier ones The signs are auspicious and full of hope. In Missouri the Radicals have split into two waring and irreconcilable parts, and such ground has been taken as will be certain, before 1872, to give that powerful State to the Democracy.

LETTER FROM NEW CASTLE, DEL.

Correspondence of the Middletown Transcript.

NEW CASTLE, DEL. Sept. 21, 1870.

MR. EDITOR—Having a few leisure moments I thought they could not be better employed than in dropping you a few lines from "ye ancient towne," so forthwith begin plying the quill. Firstly, then, let me tell you we are now prepared for the enemy "fire," whenever he shall put in an appearance, for water was introduced on Tuesday last, and that too without the aid of the two thousand men advertised for not long since. The machinery at the creek works satisfactorily, the basin is kept full and everything watery is lovely. The weather hereabouts is quite cool, owing, no noubt, to the copious rains lately fallen in some sections of our country. The new Roman Catholic Church is being pushed rapidly forward under the superintendance of G. L. Jemison, Esq. the contractor, and will undoubtedly be roofed in by Christmas, after which I believe it is the intention of the congregation to hold a fair in it for the purpose of adding to their treasury. The new Odd Fellows Hall, that was to be, remains "in statu quo"—there appears to be a dead lock in some of its machinery, somewhere. F. Leckler is putting up a small frame building adjoining his stove and tin store, intended we believe as a meat shop, a thing badly needed in this place. The M. E. Church held a Fruit and Floral Festival last week in the Market House, which was well attended, and was quite a success. A French Barque, abandoned at sea, was picked up by the schooner Jos. P. Comegys and brought to this port on Monday last. As she is richly laden with French wines and brandies she is quite a prize.

There is a rumor of a severe fight having taken place at the colored camp meeting in McFarland's woods, among the negroes, and of several being severely wounded, but I cannot trace it to any reliable source.

Matters political are very quiet, just now, neither party seeming inclined to make much stir, but this inactivity among the Democrats will not long continue, as the grand ratification meeting in your town next Saturday seems to have aroused them to the importance of doing something here, too, hence we hear rumors of meetings to be held here, at no distant day. H.

WHEAT CULTURE.—Wheat requires a rich soil for its growth. The analysis of its ash proves it to contain many mineral elements all of which are essential to its proper development. It requires potash, soda, silica, lime, magnesia, chlorine, phosphoric acid and sulphuric acid. All these ingredients are essential to the plant, and without them or any one of them it cannot be grown. These elements are all contained in Whann's Raw Bone Super phosphate in such proportions that they are immediately available as nutriment for the growing plant. This celebrated fertilizer has achieved signal success when used on wheat. Farmers who have once used it rely on it from year to year, and are well satisfied that it is all that its manufacturers claim it to be. In all wheat growing regions it is largely used, and never fails to insure good crops. We would advise those farmers who have not tried it to sow it with their wheat this fall. They will be fully repaid for their outlay.

A serious defalcation at the Baltimore Custom House on the part of Deputy Collector Bowerman, has been discovered, the amount being $15,000 or $20,000, which will be made good by his sureties.

LOCAL AND STATE AFFAIRS.

THE SELF-REGULATING WIND MILL.—We visited the farm of J. B. Fenimore, Esq. on Saturday last, for the purpose of witnessing the operation of one of these mills, which Mr. Fenimore has had erected on the farm occupied by his son, Samuel Fenimore, Esq. near Odessa. The mill was erected for the purpose of draining a fine meadow of one hundred acres, subject at times to overflow. It stands on the margin of Appoquinimink creek, and empties the water from the meadow into the creek. When we arrived at the mill, it was in full operation, the wind blowing a stiff breeze from the North East, varying a point or two of the compass occasionally. The mill invariably headed to the wind, answering its rudder as readily as a vessel upon the water. It was geared to the outer segment of cogs, and the water wheel made from 4½ to 5 revolutions per minute. The mill was then stopped, which took but a moment, so easily is it managed, and geared to the inner segment of cogs, which accelerated the motion of the water wheel, driving it up to 6 revolutions per minute, the mill running smoothly all the while, jarring but little and making but little noise. The water wheel has twelve buckets, with a side delivery near the axle. Each bucket will hold a barrel of water, and at a speed of six revolutions per minute, the wheel discharges 72 barrels of water per minute, a trojan labor which is astonishing to contemplate. The water-lead, from the mill to the creek, is two feet wide and six inches deep, and placed at a sufficient inclination to insure a rapid delivery, and yet the accumulating water ran over its sides, so rapidly was it drawn up from the meadow. The sails, as they are termed, are constructed of thin wooden slats, somewhat like Venitian blinds, broader at the outer end, to suit the circumference of the circle. They are made into two sections, and work on pivots fastened into the iron arms of the wind-wheel, and when the wind increases to a gale the force of the wind turns the slats, and each section opens, permitting the wind to pass through, the sails presenting somewhat the appearance of a half-closed umbrella. The little resistance which they offer to the wind in that position, insures safety in time of a hard blow, the sales readily accommodating themselves to the force of the wind. This is a most ingenious contrivance, and operates like a safety-valve to a steam-boiler, and is a complete safeguard against the destructive force of a violent wind. We watched the operation for some time, the sails closing and expanding like a parachute, according to the wind, the speed slackening as the sails opened. The idea of a wind-mill is usually associated with the old-time *sail* machine, which requires constant attention to keep the sails to the wind. And with all due precaution it not unfrequently happens that the apparatus is blown away entirely. Not so with this mill; it can be left to work day and night, without attention, for any length of time, except to keep the parts properly oiled. This mill is a great desideratum to all who need a safe, convenient, and economical motive power. It is admirably adapted for railroad tanks, for watering farm stock, for grinding and cutting feed, for irrigating farms and gardens, for draining meadows, swamps and marshes; for supplying houses and grounds with water, for fountains, fish-ponds, and other useful or ornamental purposes. It is Mr. Fenimore's purpose to attach a grist mill to it, the motive power being sufficient to grind wheat and corn, as well as to vent the surplus water of the meadow. It could be arranged for sawing, with equal facility. We called at the residence of F. T. Perry, Esq. on our return, to witness the operation of a pump in his barn yard for watering stock, which is driven by the same wind-power as the mill. It was set in motion and did its work admirably. There can be no question of the great utility of these pumps, and as their cost is so moderate as to bring them within the means of all, we have no doubt that they will come into general use. They are manufactured by the Continental Wind Mill Company, No. 5, College Place, New York. Mr. Fenimore is the agent of the Company, at this place, and will supply these useful labor-saving inventions at shortest notice.

A NEW PROTESTANT EPISCOPAL CHURCH.—St. Ann's Parish is greatly in need of a new Church edifice, and we understand that an effort will be made this fall and winter, to solicit subscriptions to a fund sufficient to erect one next spring. In this connection we take occasion to publish an extract from the report of the Rector, Dr. McCabe, made at the 80th Annual Convention of the Protestant Episcopal Church of the Diocese of Delaware, held in Dover, on the 21st of June, last:—"The Rector regrets that he cannot, as yet, report the commencement of the *so much needed* church edifice in Middletown, "for which" to use the language of the Bishop of the Diocese, in his address to the last Convention, "the necessity seems so apparent." And the neglect of which, it may be added by the Rector, must materially circumscribe the influence of the Church in this vicinity. There is wealth enough, and it is to be hoped and believed liberality enough in the Congregation, and among the friends of St. Ann's, to build a handsome and substantial House to the Lord. The town is growing; population increasing; other religious bodies are extending their influence; the church making but little headway. *We* are not moving in the same ratio, because we have no permanent church accomodations *in* the town. Saint Ann's Parish Church is just far enough beyond the limits of Middletown, to deprive its people, many of whom doubtless would be glad of the opportunity, of the privilege of worshipping God "according to the use of the Protestant Episcopal Church." The lease on the Hall we now occupy for Sunday evening services, and weekly services, and also as a Sunday School room, will expire early in the next Spring, and the owner has already made a demand for the return of the property at that time. This will throw us out of any place to meet in, in Middletown, and unless we do build a church there, we must suffer materially. The influence of this latter movement (*i. e.* building a church edifice in Middletown) would tell most favorably upon the prosperity of the Sunday School, and, under the blessing of the Head of the Church, promote the growth of our Communion. The Rector is assured by the esteemed and energetic Senior Lay Delegate to this Convention, that, if Divine Providence shall "crown the year with His goodness in the increase of the ground, and the gathering in of the fruits thereof" in this section, a vigorous effort will be made to renew the former subscriptions, and to endeavor to enlist the co-operation and aid of gentlemen of large means and generous hearts in our own community, to assist in the completion of the work. Effort and energy on the part of the Vestry and friends of the church, will, the Rector feels assured, under the blessing of Almighty God, lead to the much desired result."

The peach season, for 1870, is over; the last car will be shipped from this station on Monday next, to Wm. H. Wanser, New York. The total number of cars which have passed over the Delaware Railroad to New York from August 1st to Sept. 24th, is 2187, which at 500 baskets per car, makes the total number of baskets 1,093,500, besides what was shipped to Philadelphia, Baltimore, and other places. A few cars were shipped prior to August 1st, of which we have no account, but we presume we shall have a full and accurate report, in a few days, of the whole crop, from the master of transportation. It will be seen that the estimate of 1,300,000 baskets, made by the peach growers at their meeting in Dover, last spring, was not far from correct, although they were accused of underrating the crop with a view of enhancing prices. Growers and dealers, here, profess to be satisfied with the season's operations, so far as we have heard an opinion expressed. There is a general concurrence of opinion that freights are too high, and we understand that an effort will be made to reduce them, or some other mode of reaching market will be tried.

SUDDEN DEATH.—Simon Wicks, Esq. of Chestertown, died suddenly at Warwick, on Wednesday morning last, about 11 o'clock. He had been training his horse over the Warwick track, and after driving several times round the course, alighted from his buggy and seated himself on the ground, when he fell over and expired, without uttering a word. He is said to have been subject to heart disease, and it is supposed that his death resulted from that cause. His remains were taken to Chestertown.

The farmers having finished picking their peach crop, are now busy cutting off their corn and seeding their wheat. Much wheat will be seeded late, this fall.

Fresh fish and oysters have been plenty in this market, the present week. Perch have been sold at 50 cents a bunch; equal to city prices.

The first car load of peaches ever shipped to Baltimore, was shipped from Middletown on the 16th instant, by E. T. Evans, Esq. It was quite a curiosity to the Baltimoreans, who receive their peaches by steamers, and attracted considerable attention. The peaches were sold for $1.50 per basket. Several other cars have been shipped to that city since, and sold at satisfactory prices. Another season, Baltimore may divide with New York and Philadelphia, a larger proportion of the Delaware crop.

Mr. John T. Hayes, tobacconist, of this town, is selling a brand of tobacco called "Cupid Chewing Tobacco." It is neatly done up in packages covered with tin foil, and packed in quarto-gross boxes, each box containing about forty cents in silver change, of dimes and half dimes deposited in the packages. It outsells any other brand in the store; for, not only is the tobacco of an excellent quality, but the silver is an additional attraction.

THE LAST OF THE SEASON.—We are placed under renewed obligation to Richard W. Chochran, Esq. for a basket of choice Smock peaches. We are also indebted to Thomas S. Merrit, Esq. for a basket of the same variety.

Sweet potatoes were never finer than they are this season; dry and firm. Irish potatoes are very scarce and very dear.

SERIOUS RIOT.

On Monday afternoon last, about four o'clock, thirty or forty negroes belonging to Miles River Neck, on their way out of town, became very noisy in an altercation with two colored men of the town who had announced their intention to vote the democratic ticket. Being reproved, they were quiet for a while, but whiskey, and the friendly advice of their white *confreres*, having gotten the better of their prudence, they raised another small row in front of Mr. D. B. Griffith's store. Officer Dillen soon appeared, but the "bosses" of the crowd informed him that no one of that party was going to jail. He then went for the Sheriff, who, proceeding to the place, summoned five or six gentlemen to assist him, doubtless thinking that there would be no serious resistance, and that the quiet arrest of one or two would end the matter. But the white men of Talbot were yet to see the practical workings of the much vaunted XVth Amendment. The negroes, with the cry of "rally," "come on, boys," threw themselves in between the posse and those they were trying to arrest. Thus the attempted enforcement of the law soon became a free street fight between the two races. The whites expecting nothing serious, were few in number and poorly armed; but, a notable fact, *every negro had a weapon*—pistol, razor, knife, slung-shot, or club, and did not hesitate to use it. The posse after a while succeeded in getting one negro to jail, but while the Sheriff was unlocking the door, the negroes made a sortie and rescued the prisoner. The most of them then left town. Later in the afternoon, Sheriff Bennett succeeded in imprisoning one of the leaders, though not without some symptoms of another outbreak.

In the melee, Messrs. W. H. and Theodore Bostick received blows on the head; Mr. J. C. West, a blow on the arm; Mr. Wm. Huise, a blow on the shoulder; Mr. Ridgaway Dean was struck in the side by a bat intended for the head of Mr. John Porter, and Mr. R. H. T. Councell was slightly cut in the hand. None of the gentlemen above named are dangerously hurt, though some of their wounds are quite painful, and Mr. Dean's severe. Among the negroes, three certainly were shot, and four more cut, besides several who left with very sore heads. The citizens generally, were not aware of the riot until it was over, and this accounts for the few white men in the posse, but there were some gentlemen, who though not in the fight, rendered good help by keeping back a crowd of about twenty, through their persuasion and threats. The issue of the matter could not have been otherwise, as there were only seven or eight white men to forty or fifty negroes; and the members of the Sheriff's posse deserve especial praise and thanks from us all for the gallant manner in which they performed their duty against such odds.

It is reported that the negroes have been advised to "shoot down" any white man who interferes with them, and in consequence of threats that were made to rescue the prisoner, and attack our citizens during the night of Monday, a patrol was summoned, and guard kept through the night. No disturbance, however, occurred, and is not likely to take place while our people are properly prepared to repel an invasion, or defend themselves from attack, though the negroes are being constantly drilled in military tactics.

We thus have a practical working of negro enfranchisement—lawless and ruffianly rioting, disorder and blood-shed. We have also in this riot a slight realization of what white men of the South have been, and are still, suffering under the *benificent* reconstruction laws passed by a Radical Congress, and which they are still pressing upon the people. We are glad to learn that the negroes are sustained by but few, very few, of the white republicans of the county, and none but the most unscrupulous and corrupt countenance their action.—*Easton (Md.) Journal*

THE WAR NEWS.

A heavy battle was fought on Monday, in the neighborhood of Wissons, fourteen miles south of Paris, on the Orleans railroad. The number of troops engaged is estimated at 50,000 Prussians and 30,000 Frenchmen. The battle raged all day. The French were posted on hills and in the woods, and by means of their mitrailleuses made frightful havoc among the enemy. After a six hour's struggle at Wissons, the Prussians were forced to retreat. They fell back three miles on Mouthbery, pursued by the victorious French. Here another stand was made, but in vain, and after more desperate fighting the defeated columns of the invaders took refuge in Melun. The effect of this victory will be to preserve the rail road communication between Paris and Orleans for the present, and to greatly raise the spirits of the French soldiers and people. We have information also of a Prussian repulse at the fort on Mont Valerien, in the western suburbs of Paris, but details are wanting. Other smaller engagements are reported. The French have constructed earthworks near St. Dennis and Clamart. The Garde Mobile around Paris, are killing great numbers of Prussian scouts. The French government has decided on the immediate construction of a complete system of barricades in Paris. Henry Rochefort has been charged with the superintending of this work.

A vote has been taken in the city on the subject of surrendering. It was decided by a large majority to continue the defence to the last.

The attitude of Russia grows still more menacing towards Prussia. M. Thiers has gone to St. Petersburg at the request of the Czar. Prince Gostschakoff sent him a despatch begging him to hasten his visit. Jules Favre has made an effort for peace, but is yet without success. Bismarck, it is reported, has expressed his willingness to recede from his extreme demands.

Arrangements are being made in Prussia, to declare King William Emperor of Germany. The opposition of the South German States is looked upon with anxiety by the imperiaists.

Republican demonstrations have taken place in London, and the stars and stripes were side by side with the red cross of St. George.

Rome has fallen, and the temporal power of the Pope is ended. The Italian troops assaulted the city Wednesday. They effected an entrance though the Porta Pia. The Papal Zouaves made some resistance, but fell back before the steady advance of the Italians. The fighting lasted but half an hour, the Pope ordering the white flag to be hoisted. The city was then occupied without further opposition. The Romans received the Italians with enthusiasm. The news of the final consummation of the unity of Italy created the wildest excitement in Florence. Flags waved from all the houses, and the people were crazed with delight.

DIED.

In this town, on Wednesday last, Mr. Stephen Evans, of Sandusky, N. Y. brother of E. T. Evans, Esq. of this town.

SOMETHING NEW.

A great Boot and Shoe and Hat Store, in

SMYRNA,

KNOWN AS THE

BEE HIVE,

Where a full line of

Boots, Shoes, Hats, Caps, Trunks and Valises,

are kept constantly on hand. I would call the attention of the public to my new store. I have just opened the largest stock Boots and Shoes ever opened by any dealer on this peninsula. My stock embraces Mens Heavy Kip Boots, eighteen and twenty inch legs, double sole and double upper, and tap sole, warranted to turn water.

Mens Fine French Calf,

Double Upper and Sides Lined Boots, CUSTOM MADE,

And warranted as good as can be made in a shop, at three dollars less on the pair.

Ladies', Misses', and Children's Shoes,

IN LARGE VARIETIES, HEAVY, MEDIUM, AND FINE.

I make a speciality of Ladies', Misses' and Children's fine wear. You will always find the leading styles. All the leading styles of

Men's, Youth's, and Boy's Hats,

Stylish, Plain, and Staple. Also, the Fall Style OF GENTS FUR HATS.

Ladies', Misses', and Children's Furs,

A Choice lot of Trunks and Valises.

These goods are all bought frrom first hands, for Cash, and will be sold only for Cash, as we keep no books. Do not forget the name, the *BEE HIVE*. J. H. PRIMROSE,

Commerce St. below Market, Smyrna, Del.

P. S.—I think it would be well for persons in and around Middletown, to come to Smyrna and purchase their Boots, Shoes, Hats, and Furs at the Bee Hive, as I am determined to make it to your advantage. Don't forget this. J. H. P.

TRUSTEE'S SALE.

BY virtue of a decree of the Circuit Court of Kent County, as a Court of Equity, the undersigned, as Trustee, will expose to Public Sale, to the highest bidder, on

WEDNESDAY,

THE FIFTH DAY OF OCTOBER, 1870,

at eleven o'clock, A. M. at the Hotel Porch of John Pennington, in Galena, Kent county,

All that Tract or Parcel of Land,

in said county, containing about

One Hundred Acres,

adjoining the town of Galena, on the road leading to Georgetown and Sassafras; also adjoining the lands of Joseph P. Ireland, Dr. James Heighe, and others. A portion of this land is considered very productive, and the whole is desirable property.

THERE IS A

DWELLING

and some Out Houses on the premises. The property is divided into four fields, and the out and division fences are in fair condition. There are about

1400 Peach Trees,

one half about four years old, and in bearing, and the other half about two years; and of good varieties.

There is a small portion in WOOD, suitable for fuel, and also some Chestnut.

A few Lots will be laid off, and the property sold as a whole or in parts.

A Plot of the property will be exhibited at the sale.

THE TERMS OF SALE, as prescribed by the Trustee, are—One fourth of the purchase money on the day of sale or in sixty days thereafter, at the option of the Trustee, and the balance in three equal instalments, in six, twelve and eighteen months from the first day of January next, with interest from that time, to be secured by the bond of the purchaser or purchasers, with security to be approved by the Trustee.

GEORGE VICKERS, *Trustee.*

Chestertown, Sept. 17, 1870—tds

DR. KLINE, *at the Philadelphia Cancer Institute,* 931 Arch St.; Prof. Dalton, 238 W. 4th St., Cincinnati, O., and Dr. Greene, at Charlotte, N. C., are making astonishing cures of all Cancer Antidotes knife or caustic and with but little root and fibre is removed, if taken in time. Beware of bogus Professors, with their medicine, pain. Every killed and removed, if taken in not return. Beware testimonials and advertisements, stealing our of bogus Professors, stealing our treatments. None other have these treatments. None other should ever be used. For particulars, send for circular, call, or address as above.

Card from James Armstrong.

THE undersigned would hereby respectfully beg leave to return his sincere thanks to the Democratic and Conservative voters of New Castle county for their partiality in selecting him as their candidate for the Sherffalty, from among so many other gentlemen, whose names were presented to them on Saturday last, any one of whom would have done honor alike to the office and the great party to which they so long and faithfully adhered.

It would afford him great pleasnre to visit his friends in every Hundred in the county and to tender to each, personally, his thanks for the honor conferred upon him; but, as circumstances, which are best understood by those who are most intimately acquainted with him, render this impracticable, he adopts this as the only available mode of expressing his gratitude to his fellow-citizens for their past support and of soliciting a continuation of the same at the ensuing general election, pledging himself, that, should he be so fortunate as to be elected to the said office, he will discharge its duties with honesty, fidelity, and to the best of his humble ability.

JAMES ARMSTRONG.

The Great Medical Discovery!

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

Made of **Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors,** doctored, spiced, and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. **Such Diseases are caused by Vitiated Blood,** which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequaled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

And Real Estate Agents,

Middletown, Delaware.

LANDS in Delaware and the Eastern Shore of Maryland are generally level, easily cultivated, naturally rich and susceptible of the highest improvement, and easily restored when reduced by hard tilling. The farms we offer have a fair proportion of timber and wood, and lying between the two large bodies of water, (the Delaware and Chesapeake bays and their tributaries) are well watered and thoroughly drained. The climate from its location is very healthy, mild and salubrious, and this consideration alone is an inducement to many northern farmers, to escape the rigorous winters, so destructive to health and their stock. These lands have also the very great advantage in the fact that they produce abundantly all kinds of grain, fruit and vegetables, which can be shipped by railroads, in well ventilated market cars, or by commodious steamers, at low rates of freight, and in sufficiently short time to reach Philadelphia and New York markets to enable them to compete with lands near those markets.

No. 1.

Farm of 250 acres; improved land and new buildings. In Kent county, Md. Price $10,000—terms easy.

No. 4.

Farm of 186½ acres, near Middletown (1 mile.) Good buildings. Price $38,000—terms easy.

Poetic Trifles.

FULFILMENT.

Waking in May, the Peach Tree thought:
"Idle and bare! and weaving naught!
Here have I slept, the winter through,
I, with my Master's work to do!"

Started the buds—the blossoms came,
Till all the branches were aflame!
She rock'd the birds, and wove the green,
As busy a tree as ever was seen.—

Busy and blithe, she drank the dew,
She caught the sunbeams gliding through;
She drew her wealth from sky and soil,
And rustled gaily in her toil.

Now, see the Peach Tree's drooping head,
With all her fruit, rich, blushing red,
Knowing her Master's work is done,
She meekly resteth in the sun.

A bore is a fellow who keeps talking to you about himself, when you want to talk to him about yourself.

In attempting to go to *Berlin*, Napoleon got badly *worsted*, and Eugenie floated away from Paris, like a *zephyr*.

DELAWARE
GRAIN AND PHOSPHATE DRILL.

THE undersigned having perfected his improved "DELAWARE DRILL," would inform the Farmers that he is now prepared to furnish them with the best combined Grain and Phosphate Drill ever introduced into this country.

It is very simple in construction; very substantially made up; has the patented porcelain wheel; is easily regulated, and guaranteed to sow *any and every kind of merchantable Guano and Phosphate* with the greatest uniformity and accuracy.

It has been used and endorsed by over 150 of our best farmers in this and the adjoining State of Maryland during the last two years (1868 and 1869) and, as will be shown by their written certificates now in my possession, has given entire satisfaction.

Farmers wishing these drills will please address W. N. HAMILTON, M. D.
Odessa, Del.
Or WM. T. SHAW & CO. Manufacturer.
Wilmington, Delaware.

TERMS:

Delaware Grain and Phosphate Drill,

$125 CASH.

N. B.—I am also prepared, at at my shop in Odessa, to attach my Delaware Phosphate Sower with all its improvements and in the most substantial manner, to the Haines & Wood's or any common grain drill now in use, and guarantee to give entire satisfaction.

Farmers wishing the Attachment will please forward their orders as soon as possible as only a limited number will be furnished this season.

TERMS:—Delaware Phosphate Sower attached old drill, $45, Cash; or an approved note at 30 days. W. N. HAMILTON, M. D.

Card from James Armstrong.

THE undersigned would hereby respectfully beg leave to return his sincere thanks to the Democratic and Conservative voters of New Castle county for their partiality in selecting him as their candidate for the Sheriffalty, from among so many other gentlemen, whose names were presented to them on Saturday last, any one of whom would have done honor alike to the office and the great party to which they so long and faithfully adhered.

It would afford him great pleasnre to visit his friends in every Hundred in the county and to tender to each, personally, his thanks for the honor conferred upon him; but, as circumstances, which are best understood by those who are most intimately acquainted with him, render this impracticable, he adopts this as the only available mode of expressing his gratitude to his fellow-citizens for their past support and of soliciting a continuation of the same at the ensuing general election, pledging himself, that, should he be so fortunate as to be elected to the said office, he will discharge its duties with honesty, fidelity, and to the best of his humble ability.

JAMES ARMSTRONG.
Newark, Del. June 11, 1870—tc

COUGHS, SORE THROAT, &C.

No medicine or treatment can excel the powerful curative power of

DR. SIMMS'
White Pulmonic Balsam.

IT cures with a rapidity unequalled by any other remedy offered for throat and lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore, and other cities and communities throughout the country. Mr Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of Coughs, Colds, Sore Throat, Asthma, Bronchitis, Croup, Blood-spitting, Hoarseness, and even Pulmonary Consumption, where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will will not cure if carefully used, according to directions. We guarantee all we represent it to be, and invite a trial from the afflicted everywhere. Price 50 cents, medium size, and $1 for large size bottles. Prepared only by

The Hyperion Hair Curlers.

An Indispensible Article for the Ladies.

PATENTED JULY 9TH, 1867.

This curler is the most perfect invention ever offered to the public. It is easily operated, neat in appearance, and will not injure the hair, as there is no heat required, nor any metalic substance used to rust or break the hair.

Manufactured only, and for sale by
McMILLAN & CO.
No. 63 North Front St. Philadelphia.

Sold at dry goods, trimming and notion stores.

N. B.—Single box, 25 cts. 3 boxes, assorted sizes, 65 cts. Mailed to any part of the United States, upon receipt of the money.
June 18—6mos

PROMPT,
ACTIVE,
RELIABLE,

A Great Crop Producer and Thorough Renovator of worn out lands.

For Sale by **E. T. EVANS,**
Middletown, Del.

Middletown, Del. Feb. 28, 1868.

MESSRS. WALTON, WHANN & Co.—*Gentlemen*: I used Whann's Raw Bone Super-Phosphate on my corn last spring, and on my wheat in the fall. In each case it produced an excellent crop. Wishing to determine which of the different phosphates would pay me best, I tried several, and am glad to say the yield was much the best where I used Whann's. I shall continue to use it, and cheerfully recommend it to my neighbors.

A. T. STOOPS.

Middletown, Del. March 17, 1868.

MESSRS. WALTON, WHANN & Co.—*Gentlemen*: I have been using Whann's Phosphate for some time past alongside of the popular fertilizers, and have come to the conclusion it is as good as any other. I am going to use ten tons this spring.

Yours truly, HENRY CLAYTON.

DELAWARE COLLEGE,
NEWARK, DELAWARE,

WILL be re-opened for the reception of Students Wednesday, September 14th, 1870.

The Trustees of the College have secured a corps of competent and able Professors in the several departments of Instruct on, and students may pursue either the regular Classical Course, such as is taught in our best Colleges or if they prefer it may confine their studies to the *Scientific* and *Agricultural* Departments, in which special attention is given to these branches of learning, relating to Agriculture and Mechanical Arts.

It is the design of the Institution to provide for young men a thorough practical education at a very moderate expense.

For Circulars containing full information, address WILLIAM H. PURNELL, A. M.
aug 6—3m President.

MIDDLETOWN ACADEMY.
